JavaScript • Python • NextJs • ReactJs • Django • Tailwind • Typescript • PostgreSQL • Git • GitHub • HTML • CSS

PROJECT WORK

Discing Up - www.discingup.com   **Online Remote**
Full Stack Software Engineer   January 2023-Present

Full-stack web application with dev, staging and production environments, CRUD operations, Cron job for database maintenance, third-party API integrations, webhook subscriptions, and Facebook crawler signaling.

- Implemented dynamic page preview image: shared URLs include the latest data in the preview image. Leveraged Cloudinary programmable media, to generate unique images, and Next.js' on-demand incremental static regeneration (ISR) to update the page's image meta tag.
- Implemented Heroku webhook handling for database credentials rotation, the web app automatically fetches the new credentials, updates environment variables, and signals Vercel to redeploy.

Urankar Law, LLC - www.urankarlaw.com   **Online Remote**
Web Developer   August 2022

- Referencing the client's design, built reusable components and styled the landing page while learning Typescript, Next.js and Tailwind CSS.

PROFESSIONAL EXPERIENCE

Schottenstein Real Estate Group   **Columbus, OH**
Accounting Manager   October 2018 - October 2022

- Wrote custom Word macro to calculate tenant move-in prorations to alleviate rounding issues and miscalculations - improved communication between tenants, leasing staff and the corporate office - eliminated human error and automated the calculation reclaiming 50 hours of work a year
- Leveraged advanced understanding of Excel formulas, pivot tables and macros to roll-forward workpapers in a reusable format and perform data analytics
- Standardized the reconciliation of former residents' move-out damages disputes with maintenance, leasing staff and corporate policy - promoting equal treatment and transparency

Ernst & Young   **Toledo, OH**
Staff II - Assurance Practice   September 2014 - July 2016

- Tied-out client's annual report to audit work papers - identified and communicated to the team and client inconsistencies and adjustments needed prior to attestation.
- Performed variance analysis of financial statement accounts and assessed the reasonableness of client explanations with audit work papers.

EDUCATION

Code Platoon (coding bootcamp)   **Online Remote**
Tech Stack: Django, ReactJs, PostgreSQL   July 2022

Bowling Green State University   **Bowling Green, OH**
Bachelor of Science in Business Administration (concentration: accounting)   May 2014
Honors: cum laude (GPA: 3.5/4.0)
